Data & Information Management Tools for the CGIAR Gender and Agriculture Research Network

01/Jun/2016
CGIAR Gender & Agriculture
Network Webinar Series

Speaker: Leroy Mwanzia
Facilitator: Martina Mascarenhas

Inventory of CGIAR Gender Studies

- Crowdsourced catalogue of gender research studies being carried out by CGIAR researchers.
- The idea came from the Gender Network Annual General meeting in Los Baños, Philippines in 2015
- Aims:
 - To provide an overview of gender research studies
 - To foster collaboration within the network
 - To aid in CGIAR reporting

Gender studies

Total Gender Studies : 135

What next

- Update existing gender studies with missing and more accurate information
- Crowdfund more studies from the CGIAR Gender and Agriculture network
- Create interesting visualizations of the CGIAR gender studies in the inventory
- Combine data with other spatially defined CGIAR research e.g. Sentinel Landscapes
- Create more linkages with ongoing open data/big data platforms being developed in the CGIAR

Gender and Agricultural Data Navigator

- Tool to support the Sex-Disaggregated data work for Gender Analysis being led by **Cheryl Doss** and **Caitlin Kieran** of CRP PIM led by IFPRI
- Searchable inventory of household questionnaires that focus on agriculture and food security and can be disaggregated by sex
- The inventory classifies each survey question as sex-disaggregated or not based on **who responded** and how the **question was framed**.
- It identifies whether each respondent is asked:
 1. Who in the household has various rights and responsibilities
 2. Questions about specific household members or all household members
 3. Questions about him or herself, or
 4. Questions about men and women separately, but not specific individuals.If none of these approaches were used, then the information cannot be disaggregated by sex.

Gender and Agricultural Data Navigator

What I hope to achieve:

- Get feedback on the usability of the tools and areas of improvement
- Have the network support Cheryl and Caitlin in PIM to grow the catalogue of sex-disaggregated survey questionnaires

Must read for CGIAR and other researchers collecting sex-disaggregated data:

Doss, Cheryl; and Kieran, Caitlin. 2014. **Standards for collecting sex-disaggregated data for gender analysis: A guide for CGIAR researchers**. <http://hdl.handle.net/10947/3072>

Demo

The screenshot shows the top navigation bar of the CGIAR website, featuring the CGIAR logo and the text "Research on Gender and Agriculture". Below the navigation bar, the main heading "Gender and Agriculture Data Navigator" is displayed. The interface is divided into two main sections: "Select Surveys by Categories" and "Surveys".

Select Surveys by Categories

- Country
- Survey name
- Organization
- Year
- Extension and Technology Adoption
- Financial Services
- Food Security and Shocks
- Housing and Other Assets
- Livestock and Fishing
- Land, Crops and Inputs
- Nutrition, Anthropometry, and Reproduction
- Other
- Social Assistance and Remittances
- Time Use, Labor and Income
- Water, Energy and Sanitation

Surveys

- Adoption Pathways
- Bangladesh Integrated Household Survey (includes Women's Empowerment in Agriculture Index pilot)
- CCAFS Survey
- Ethiopia Rural Socioeconomic Survey (ERSS)
- Ethiopian Rural Household Survey
- Feed the Future Ghana Baseline Dataset (includes WEAI)
- L'Enquete Nationale sur les Conditions de Vie des Menages et l'Agriculture
- Malawi Third Integrated Household Survey
- Nigeria General Household Survey
- Suashara Impact Evaluation
- Tanzania National Panel Survey
- Uganda National Panel Survey
- Women's Empowerment in Agriculture Index (WEAI) pilot

At the bottom of the interface, there are two buttons: "Show context information" (with a checked checkbox) and "RESET SELECTION" (with a circular arrow icon).

What next

- Improve the tool with feedback from the Gender Network members
- Network members to support further development of the tool led by PIM (Cheryl and Caitlin) by adding more survey questionnaires to the inventory.
- Link surveys to more related resources Publications, data etc.
- Create a visual search tool of the same information

Q&A and Discussion
