

**Gender &
Breeding
Initiative**

The Gender and Breeding Initiative

Graham Thiele, Cynthia Donovan and Vivian Polar

8 December 2017

CGIAR Gender and Breeding Initiative

- Overlooking gender differences and traits important to women: aggravate household food insecurity and poverty
- **Priorities** that women and men assign to genetically determined traits.
- Well targeted product (variety) profiles: greater adoption of improved varieties and greater impact.

Goals

- Strategy for gender-responsive breeding with practical approaches and tools.
- Collaboration and integration among plant and animal breeders and social scientists

CGIAR Gender and Breeding Initiative

- **Coordination:**

- **Linking with:**

CGIAR centers
CGIAR Research Programs

What have we done?

Active Websites with blogs:
