

The logo for GAAP2 phase 2 is displayed in large, white, serif font. The word 'GAAP2' is the largest, with 'phase' in a smaller font above the '2'. The background of the logo is a photograph of a man in a white shirt standing in a field with several white oxen.

GAAP2<sup>phase</sup>

Gender, Agriculture & Assets Project

A collage of three photographs showing agricultural scenes: a man with oxen, a woman with a red headscarf, and a woman with children.

# Starting point: Women's Empowerment in Agriculture Index (WEAI)

- ▶ Survey-based index
- ▶ Developed by IFPRI, USAID, & OPHI
- ▶ Launched in 2012
- ▶ Measures inclusion of women in the agricultural sector

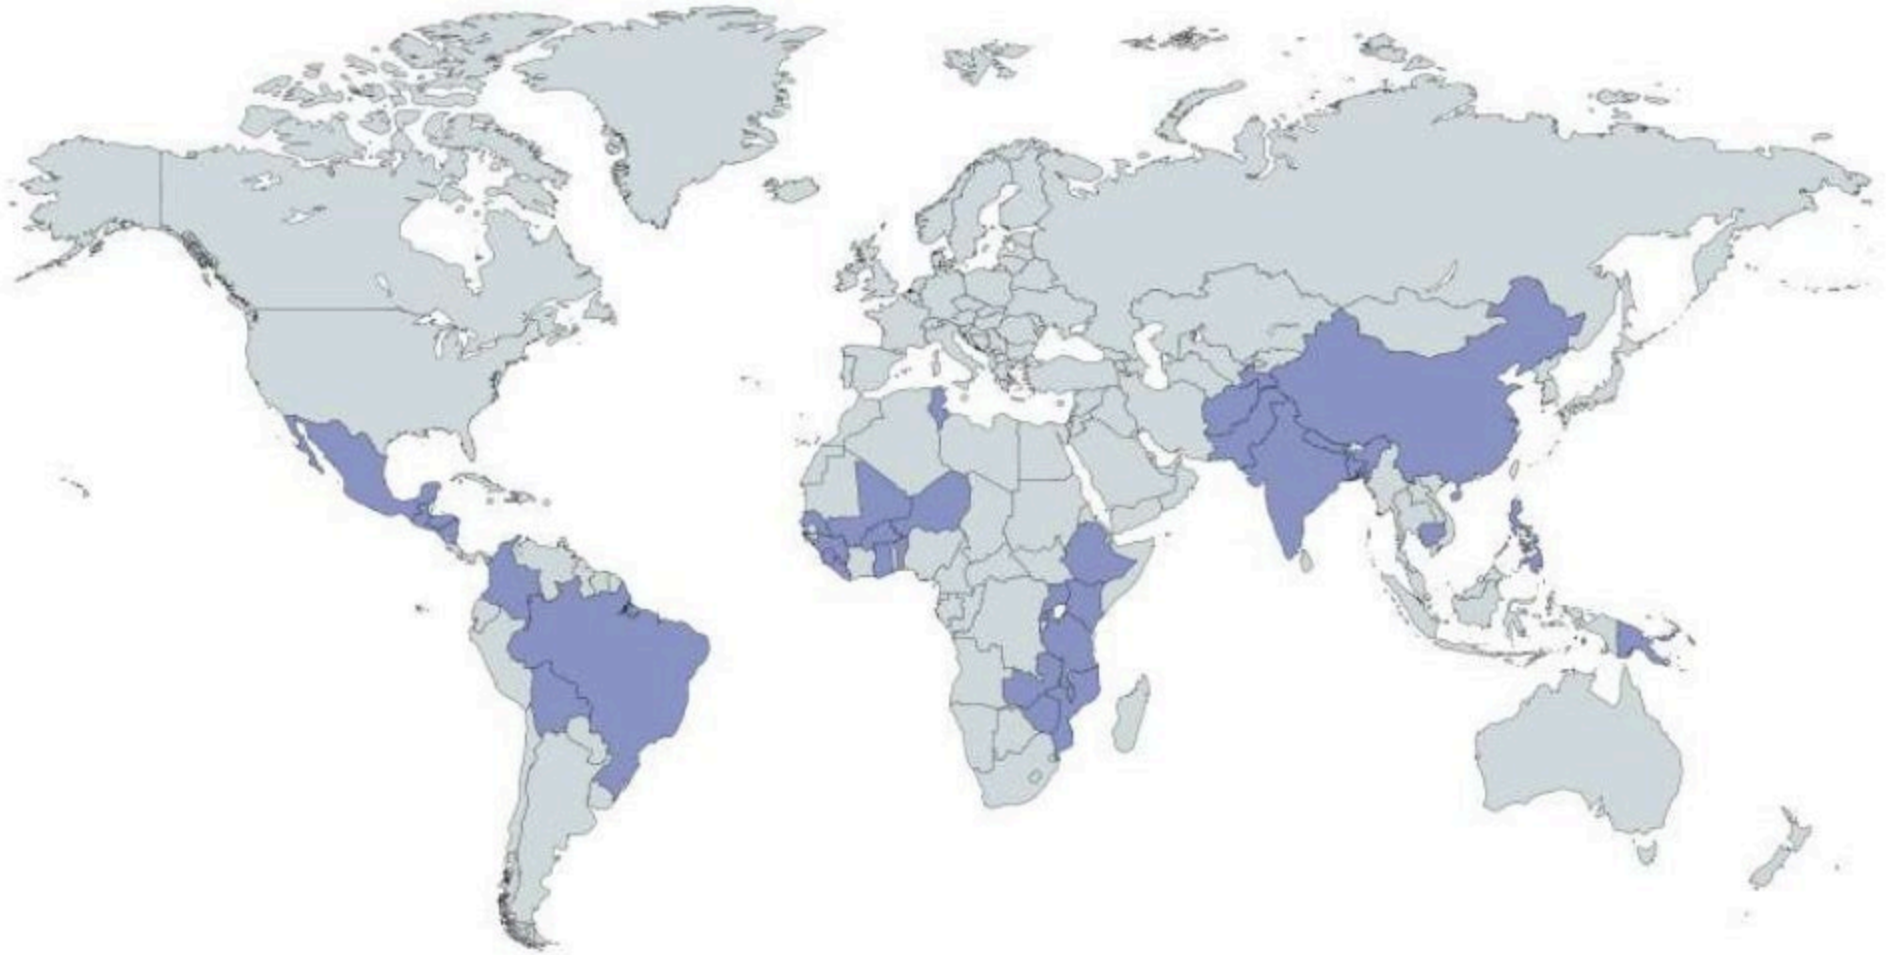

# How is the index constructed?

- ▶ An aggregate index in two parts:
  - ▶ Five Domains of Empowerment (5DE)
  - ▶ Gender Parity Index (GPI)
- ▶ Constructed using interviews of the **primary male** and **primary female** adults in the same household

# 50 countries, 75 organizations

Created with mapchart.net ©

# Pro-WEAI

Comparable metrics for empowerment:

Core set of pro-WEAI  
empowerment modules

- ▶ Quantitative survey
- ▶ Qualitative protocols

+

Standardized add-ons  
depending on project needs

- ▶ Nutrition and health
- ▶ Livestock-enhanced

# GAAP2 for pro-WEAI: A portfolio approach to measuring empowerment

Qualitative

Income

Intrahousehold  
relationships

# IDENTIFYING DOMAINS OF EMPOWERMENT

# Original WEAI: 5 domains

# How WE(AI) define empowerment

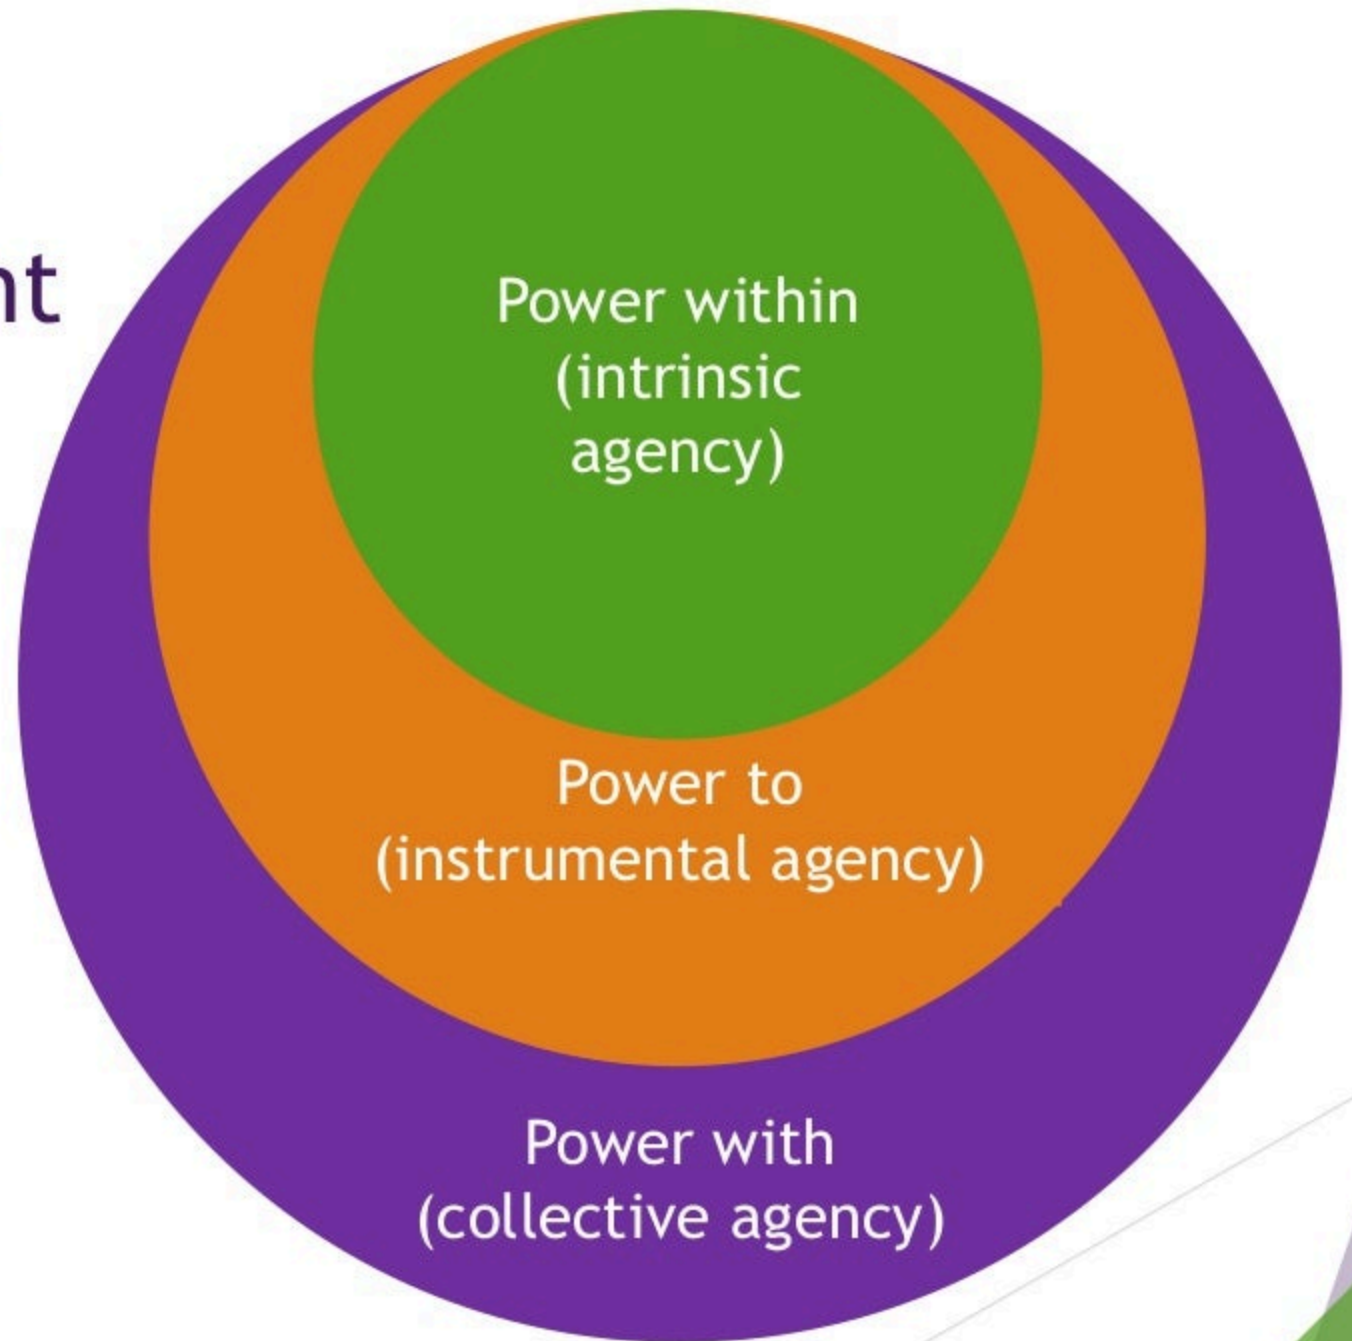

Three types  
of agency  
measured  
in all  
versions of  
the WEAI

# Three domains of empowerment

# DEVELOPING INDICATORS OF EMPOWERMENT

# Original WEAI: 10 indicators

# Draft indicators

## A-WEAI indicators

Input in productive decisions

Ownership of assets

Access to and decisions on credit

Control over use of income

Group membership

Workload

# Draft indicators

A-WEAI indicators	New indicators
Input in productive decisions	Access to information
Ownership of assets	Autonomy in production
Access to and decisions on credit	Autonomy in income
Control over use of income	Decision-making over land
Group membership	Responsibility for repayment
Workload	Access to a financial account
	Input in decisions about outputs
	Input in group decision-making
	Membership in influential groups
	Ability to visit important locations
	Respect among household members
	Attitudes about domestic violence

# Pilot data from the GAAP2 projects

WorldVeg	Mali	714	694
<b>TOTAL</b>		<b>17,544</b>	<b>15,324</b>

# Choosing indicators and assessing indicator thresholds

- ▶ Compare several potential indicator thresholds using pilot data
- ▶ Check percentage of missing data for each indicator
- ▶ Look at correlations and redundancy between indicators
- ▶ Discuss dilemmas with GAAP2 team, projects, and partners
- ▶ REPEAT

# Ex: Control over use of income

How much decision-making power about income gives someone adequate “control over use of income”?

Should we include control over agricultural outputs?

## Ex: Control over use of income

At least some input in decisions	Income (%)	
	Female	Male
Staple grain	82	95
Horticultural/high value crops	78	89
Large livestock	79	92
Small livestock	84	93
Poultry/small animals	87	84
Fishpond	64	89
Non-farm economic activities	88	96
Wage and salary employment	89	99

# Ex: Control over use of income

At least some input in decisions	Income (%)		Output (%)	
	Female	Male	Female	Male
Staple grain	82	95	86	98
Horticultural/high value crops	78	89	85	97
Large livestock	79	92	84	95
Small livestock	84	93	87	94
Poultry/small animals	87	84	91	87
Fishpond	64	89	79	97
Non-farm economic activities	88	96	N/A	N/A
Wage and salary employment	89	99	N/A	N/A

# Ex: Control over use of income

Potential indicator definitions	% adequate	
	Women	Men
At least some input in decisions about INCOME from at least ONE activity	91	99
At least some input in decisions about INCOME and OUTPUTS from at least ONE activity	91	99

# 12 indicators of empowerment

# SELECTING CUTOFFS AND WEIGHTS

# Original WEAI: Equal weights by domain, 80% empowerment cutoff

# Pro-WEAI: Equal weights (1/12), 75% empowerment cutoff

Intrinsic Agency		Autonomy in income
		Self-efficacy
		Attitudes about domestic violence
		Respect among household members
Instrumental Agency		Input in productive decisions
		Ownership of land and other assets
		Control over use of income
		Access to and decisions on financial services
		Workload
Collective Agency		Visiting important locations
		Group membership
		Membership in influential groups
